

Philipsborn

THE OUTER GARMENT SHOP
608 TO 614 ELEVENTH STREET

Dry air cold storage for furs—with insurance against loss or damage by moth, fire or theft. Moderate charges.

We Announce
Our Annual
After-Easter Sale
of Tailored Suits.

Many of the suits you saw before Easter now have new prices. Not all of them—but several hundred.

No reason for the reduction except that we have too many suits, due to a backward pre-Easter business on account of unfavorable weather conditions.

The higher priced suits show the most reduction—the \$50 and \$55 lines are now \$37.50.

Many that were \$30 and \$35 are now \$25—and several lines that were \$37.50 and \$40 are now \$30.

At \$18 is a good assortment that sold at \$25 before Easter.

Suits for every purpose—plain tailored street styles and trimmed fancy models—in every fashionable fabric and color.

No charge for alterations except on the \$18 lot.

"Alaska" and "Cold Storage" Refrigerators.

Our stocks of Refrigerators and Ice Chests are exceptionally complete, including all sizes in the best makes.

All "Alaska" and "Cold Storage" Refrigerators are plainly marked with metal plate and can be bought here only in the District.

Refrigerators, \$6.50 to \$100
Ice Chests \$2.75 Up

W. B. Moses & Sons
Founded 1861 F St., Cor. 11th

BON MARCHÉ

314-316 Seventh Street

THOSE MANNISH SUITS —AT— \$19.50

The foundations and linings of these suits, in combination with the expert designing and conscientious tailoring, give them shape retaining qualities all their own. No matter how they are worn they are always stylish and shapely. In all the wanted shades, including white serges, worsteds and diagonals. The coats are cut attractively short, with notched or roll collars. The skirts are shown in the new designed full platings. No matter what the price, you cannot match these values elsewhere.

Extreme Mannish Effects —AT— \$24.50 or \$29.50

A series of original models in the most desirable materials of the season. The coats have the new notched collars or the nooby Tuxedo roll. Also the new Russian Kaftan blouse and other peasant adaptations.

FOR CHARITY'S SAKE

Third Annual K. C. Ball a Great Success.

WAS LARGELY ATTENDED

Good Music, Pretty Girls and Plenty Partners.

SUPPER BETWEEN DANCES

Dancing Kept Up Till Early Morning—Some of the Guests.

The Knights of Columbus gave their third annual charity ball at the New Willard Hotel last night, when more than 300 couples were present. Twenty or more two-steps and waltzes with several barn dances made up the program, which was enjoyed by both young and old. Both ballrooms were draped with large American flags, and palms and flowers made a further decoration. About 9:30 o'clock the Marine Band struck up the grand march, which was led by Mr. Samuel B. Donnelly and Mrs. Donnelly up and down the hall until a two-step announced that the ball had really begun. In the red room supper was served between 11 and 1, the ladies being in shapes of Easter eggs and other specialties. Guests were received by the executive committee, with Thomas J. Donovan, chairman, and the guests of honor were escorted to the box, where they remained throughout a great part of the evening. Among the representatives and Mrs. Randall, Representative and Mrs. Morris Sheppard, Representative and Mrs. Maguire, Representative and Mrs. Graham and Representative and Mrs. Cooper.

The reception committee was composed of the following: Robert J. Barrett, chairman; Henry A. Buscher, T. H. Crook, Joseph W. Cotter, Robert E. Doyle, Sr., C. P. Daly, J. S. Eashy-Smith, L. PUZZLE FOR STATES.

Eggs Owned in Maryland Smashed in Delaware.

DELMAR, Md., March 29.—While running their automobile on State street Saturday afternoon Drs. S. H. Whayland and F. E. Hatch caused an accident which may prove a puzzle for the authorities. The automobile was running in Delaware, and a farmer on the Maryland side was driving a mule to a wagon which contained seventeen dozen eggs. The auto scared the mule, which became unmanageable and ran away, and the eggs were thrown across the street, breaking them in Delaware.

The farmer, sustaining a loss of several dollars at the price now paid for eggs, says he will sue. The question is, in what state will he bring suit? He was not in Delaware, but all his loss was.

Sanitary

Stores Everywhere. One Near You.

A full line of package goods from 5c to 15c per package.

Wafers, the soda cracker of the town. Per package. 5c

You Can't Afford to drink other than Schlitz Beer

Cheap beer, your doctor will tell you, is apt to be full of germs and so "green" as to make you bilious. The doctor knows that purity is expensive.

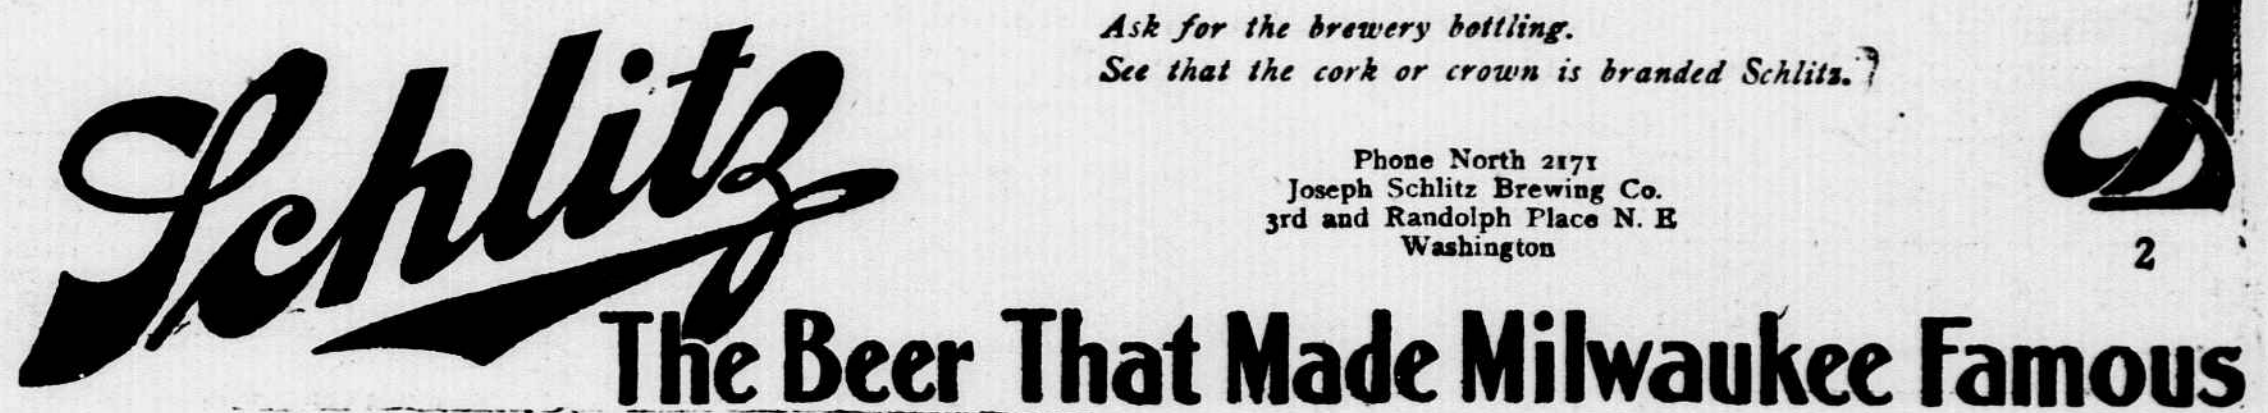

He knows that proper aging requires months of time and immense storage space.

These are the precautions we take and the expenses we incur to insure the purity of Schlitz:

Every tub—every vat—is washed with hot water and steam. Every bottle is washed four times before it is filled.

The beer is filtered through white wood pulp. Even the air in the cooling rooms is filtered. Then Schlitz is aged for months in glass-lined steel tanks. Finally every bottle is sterilized after it is filled and sealed.

Such precautions as these have made Schlitz the home beer. It is the safe beer for your family. It is the beer of quality for your guests.

SHOOTS AT HIS WIFE.

Veteran Oarsman Opens Fire When He Finds Man Visiting Her.

SAN DIEGO, March 29.—Joseph Courtney, physical director of the San Diego Rowing Club and a veteran oarsman, yesterday morning attempted to kill his wife and William Normandie in the former's apartments. Courtney and his wife separated about a year ago. Courtney went to his wife's rooms and listened at the door. When he heard the sound of a man's voice he broke in a panel of the front door and fired four shots through the aperture at the couple inside. None of the bullets took effect, however, and Mrs. Courtney and Normandie escaped through a rear door and notified the police. When the officers arrived there they found Courtney seated in one of the chairs in the parlor. He was arrested on a charge of assault with attempt to commit murder. Normandie is an officer of the Society for the Prevention of Cruelty to Animals. He stated that he had called at

POISON IN PINEAPPLE.

Scratch on Finger Causes Brooklyn Woman's Death.

NEW YORK, March 29.—Poison caused by a scratch from one of the small spines of a pineapple resulted in the death Sunday of Mrs. Helen N. Mitchell, a widow, sixty-two years old, of No. 334 4th avenue, Brooklyn. Tuesday, March 15, Mrs. Mitchell was preparing a pineapple when the skin between the thumb and forefinger of her right hand was pierced. The spot became inflamed immediately. Mrs. Mitchell suffered a great deal of pain and visited Dr. J. T. Devoyn, No. 340 9th street. At first the physician pronounced it a case of poisoning, but two days later decided that the inflammation was caused by something out of the ordinary, and he called other physicians in consultation, but without result. It is believed that the poison was produced by some unknown virulent insect of the tropics.

TO PHOTOGRAPH COMET.

Pictures Will Be Taken at Honolulu With Astronomical Camera.

PITTSBURGH, Pa., March 29.—A special astronomical camera has been set up at Honolulu, which is expected to catch some interesting pictures of Halley's comet when, on May 18, it completes its 3,100,000-mile trip around the sun and begins a similar journey all over again. Dr. John H. Brashers, the well known Pittsburg astronomer, who told today of providing the camera, said that May 18 the head of the comet would cross the solar disc and the phenomenon would be plainly visible in the Pacific ocean. It will take the comet but 58 minutes, he said, to cross the sun's face, and at that time it would be possible to determine how much solid matter is in the comet's nucleus, for all solid portions over ten miles in diameter would be indicated by shadowed spots against the sun's background. The comet on that day will be but fifteen million miles away from the earth and consequently will be brighter than at any other time. The experiments in Honolulu are being made by the American Astronomical and Astrophysical Society.

TO HELP INDIAN AGENCIES.

Commissioner Valentine Will Apportion Money According to Needs.

Commissioner Valentine of the Indian office is endeavoring to put the administration of that bureau on a firmer basis and, with this end in view, proposes to change the policy of the bureau in distributing the appropriations for the next fiscal year. He will apportion the money necessary for Indian agencies and schools in accordance with their needs as disclosed by estimates, which he has ordered from the officers in charge. In this way the officials will know definitely before the beginning of the fiscal year the amount of money that will be at their disposal during the coming year. The allotments will be apportioned from 1 to 10 per cent of each appropriation and reserved to meet emergencies, such as fire and pestilence.
